About Our Products

eLearning

Beyond Digital Class Rooms

eLearning is an online LMS (Learning Management System) as a SCORM compliant eLearning content course which is created with Adobe Captivate Software. This will give Visual Interface to the Students to attempt the online exams.

Can go beyond the exams like published event's dairy, celebration, Eve ;occasions.

The school environment will become the most Digital Environment not even in the class rooms but beyond the class rooms. And Students can learn at home as well.
